

Machine Knives... **Paper Film & Foil Converting**

At TGW, we manufacture precision ground circular and straight knives for many converting industries including pulp and paper, flexible packaging films foil, and non-woven industries.

Each of these industries has strict requirements that require consistent precise, clean cuts, meeting or often exceeding OEM standards. Selected grades of steel allow us to meet these requirements, with premium grades including powdered metal, carbide and added coatings to provide maximum cuts and extend product life.

Our paper film & foil converting products include:

- Top slitters
- Split perfs
- Core cutters
- Bottom knives and anvils
- Score and crush cut
- Multi-grooved knife blocks
- Rotary cutoff knives
- Dished slitters
- Web splicers
- Sheeters
- Razor slitters
- Paper tube saws

Our technical knowledge seamlessly transfers to all of our products, manufactured and for all grades and film thicknesses.

At TGW, we deliver nothing less than the highest quality knives, superior technical expertise and the best customer service in the industrial machine knife industry. Please call us at **1.800.407.0173** for all of your machine knife needs.

Knowledge Leader. Valued Partner. Superior Quality. **Delivered.**
